

## Co-op Diploma in International Trade

(6 months of Academic Studies, 6 months of Co-op)

This program provides our graduates with a practical understanding of international business management, international trade and finance, international market segmentation and analysis, international forecasting and strategic planning. Emphasis is placed on the practical application of theories to "real world" business situations.

Arbutus College is also an educational partner of the Forum for International Trade Training (FITT) and this program can lead to FITT certification and the Certified International Trade Professional designation (CITP). This program includes a six-month paid work experience in carefully selected local companies.

Prepare for your career by getting valuable Canadian work experience!
